Technical data

Preheater indirectly heated by means of heat transfer oil with **increased** heat transfer surface

- Filling quantities (gross) per preheater:	ID1100-1	/	1.100 lts
	ID810-1	/	810 lts
	ID610-1	/	610 lts
	ID410-1	/	410 lts

- hydraulically driven high-torque agitator
- heated central column
- compact design

ID1100-1 Double preheater package with platform and stairs (refer to picture), without power station.
Dimensions (LxWxH mm): 2630 x 2500 x 2300

ID1100-1 Single preheater without platform and stairs, without power station.
Dimensions (LxWxH mm): 2000 x 1250 x 2300

ID810-1 Single preheater without platform and stairs, without power station.
Dimensions (LxWxH mm): 1700 x 1200 x 2300

ID610-1 Single preheater without platform and stairs, without power station.
Dimensions (LxWxH mm): 1700 x 1200 x 2000

ID410-1 Single preheater without platform and stairs, without power station.
Dimensions (LxWxH mm): 1700 x 1200 x 1700

Options:

- different material outlets
- air intake set for oil burner
- timer
- material transfer pump
- electrical adjustment for right-/left-handed rotation of agitator

Double preheater package consisting of two ID1100-1 incl. Diesel oil burner, with platform + stairs, 10 kW power station
